

PROPRIETARY DEF TANKS

5, 10 & 15 Gallon Tanks

Translucent tanks for level monitoring are available for all tank sizes.

Custom spill tray and remote fill options are available

Elkhart Plastics, Inc. now offers proprietary “off-the-shelf” DEF tanks. These fully-integrated, plug-and-play tanks feature standard or remote fill solutions with spill trays as well as options for unique and diverse valve and venting systems. Our proprietary tank solutions enable you to easily configure a tank and header for a variety of applications. Fast lead times and custom options allow us to help solve your most difficult packaging situations quickly, efficiently, and affordably.

Unique Solutions:

- The most capable header sensors on the market
- Multiple sensor geometries available
- DEF tank sizes in 5, 10, and 15 gallons (portrait and landscape)
- Ready to ship quickly

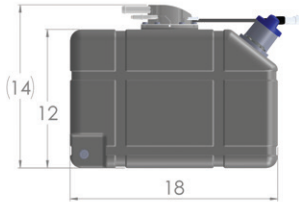

Custom Engineered Tanks

Our skilled engineers will work with you to create a custom mold that fits the unique shape needed for your product. Small or big, simple or complicated, we can design a tank to fit.
